## **“ARC Flash” – Presentation and Certification Seminars**

We are pleased to offer several state approved Safety Courses to help keep you up to date on the many developments in the electrical industry that are leading to safer workplaces. These courses are taught by our veteran expert, Al Cox, EE and are being offered in the Tri-State area. Our mission is to provide you with the latest information to protect people, equipment and investments against electrical hazards. The courses listed below range from one to eight hours. Documentation to support Professional Development Hours for state PE requirements are available upon request.

Course scheduling will be done by appointment only and can be scheduled at our facility or customer's facility.

### **Course Offerings:**

- Overcurrent Protection Basics for Designers and Specifiers
- Short Circuit Protection and Safety Seminar
- Overcurrent and Overvoltage Protection Changes in the 2019 NEC
- Understanding Arc Flash NFPA 70E Safety Requirements

### **Course Criteria:**

- 10 person minimum - 20 maximum, depending upon facility size
- Classes are \$250.00 per hour per instructor. Number of instructors is based upon class size and duration. Classes requiring more than 2 hours will require additional instructors
- Certificates available upon class completion
- 

### **Course Benefits:**

- Update your safety program to meet new NFPA 70E-2012 Standards
- Avoid electrical and Arc Flash accidents
- Meet or exceed OSHA standards for compliance and work safety
- Reduce down-time due to unnecessary injuries
- Improve employee training and safety
- Choose the right PPE to protect your employees
